

Dear \_\_\_\_\_ ,

Please help stop the murder of pre-born children by abortion.

Florida Law recognizes that the killing of a pre-born child IS no different from killing the pregnant mother. (Florida Statutes 775.021(c)(5)). Fundamentally, that presumes that the pre-born child is a separate, unique human, deserving protection of our laws and Constitution.

While many people see this issue as a political “third rail,” it should not be treated that way. EVERY state, including the very liberal California, treats the homicide of a pre-born child as the homicide of a unique person. EVERYONE KNOWS that abortion is the premeditated killing of a human. It is truly a legal and moral issue, NOT a political issue.

What can YOU do?

First, stop defending the murderers and their accessories. Stop defending them legally. You would NEVER consider defending any other murderer or their accessories. Stop defending them in public statements or policies. Stop accepting the lies that they use to mislead others into thinking that somehow, certain people are immunized from being accused of murdering a pre-born child.

Florida State Law SPECIFICALLY exempts a pregnant woman and her murder-by-abortion assassin\* from prosecution. That legislatively sanctioned exemption obviously presupposes that the willful killing of the pre-born child IS murder.

All abortion facilities need to be shut down. This can be done by preventing their intended victims from entering the death facilities. This can be done by confiscating the equipment used for the premeditated murders as evidence of past crimes. EVERY accessory to the murder – drivers, friends, family, medical assistants – can be prosecuted, even if the mother and the paid murderer cannot be prosecuted.

If you knew of ANY other building in your jurisdiction, with a history of multiple paid-for murders, and planned future paid-for murders, wouldn't you try to shut it down immediately? This is NOT different.

Please help Florida become the first state which truly and fully ends this moral and legal travesty.

Sincerely,

\* Assassin: a person paid to murder a targeted individual, a contract killer, a murderer for hire
